Backend : Node.js, Nest.js, Express.js

Blockchain : Web3.js, Ether.js, Smart Contracts

Databases : MongoDB

Tools & Platforms : Docker, Git, GitHub, Bitbucket, Linux

Development Methodologies : Agile, SDLC

WORK EXPERIENCE

Associate Software Engineer, Antier pvt. ltd.

Feb 2023 - Nov 2024

- Built a high-performance Web3 real estate platform using React.js and Next.js, improving load time by 25%.
- Integrated Stripe, Razorpay, Twilio, and Sumsb for extended functionality.
- Collaborated with smart contract teams to deploy Ethereum-based DApps.
- Coordinated closely with smart contract developers and backend teams to deploy Ethereum-based DApps.
- Delivered SEO-optimized, scalable apps with strong Lighthouse performance.

Frontend Developer, ACIL technologies pvt. ltd.

Feb 2021 - Dec 2022

- Developed 10+ responsive web apps using HTML, CSS, JavaScript, and React.js.
- Reduced load time by 40% via optimization techniques and code splitting.
- Used Bootstrap, jQuery, and Semantic UI to create dynamic interfaces.
- Improved UX and delivery speed through Agile collaboration.

PROJECTS

Portfolio Website (Personal)

Stack: Next.js, Typescript, Tailwind CSS

- Built a fully responsive, high-performance developer portfolio using Next.js and TypeScript.
- Emphasized clean code, accessibility, and open-source contribution. Check on my [Github](#).

Rooba Finance (Antier pvt. ltd.)

Stack: Next.js, Web3.js, Ether.js, Sumsb, Smart contracts

- India's first blockchain tokenization platform for real estate and assets.
- Integrated wallet connectivity, payment systems, and KYC with Web3 and third-party APIs.

DDX Global (Antier pvt. ltd.)

Stack: React.js, Web3.js, Coinbase wallet, Tailwind CSS

- Developed a modular frontend for a tokenization and consulting platform for RWA projects.
- Collaborated on building dashboards, wallet interactions, and payment flow UI.
